

RITEK 2023 ANNUAL REPORT

2023/12

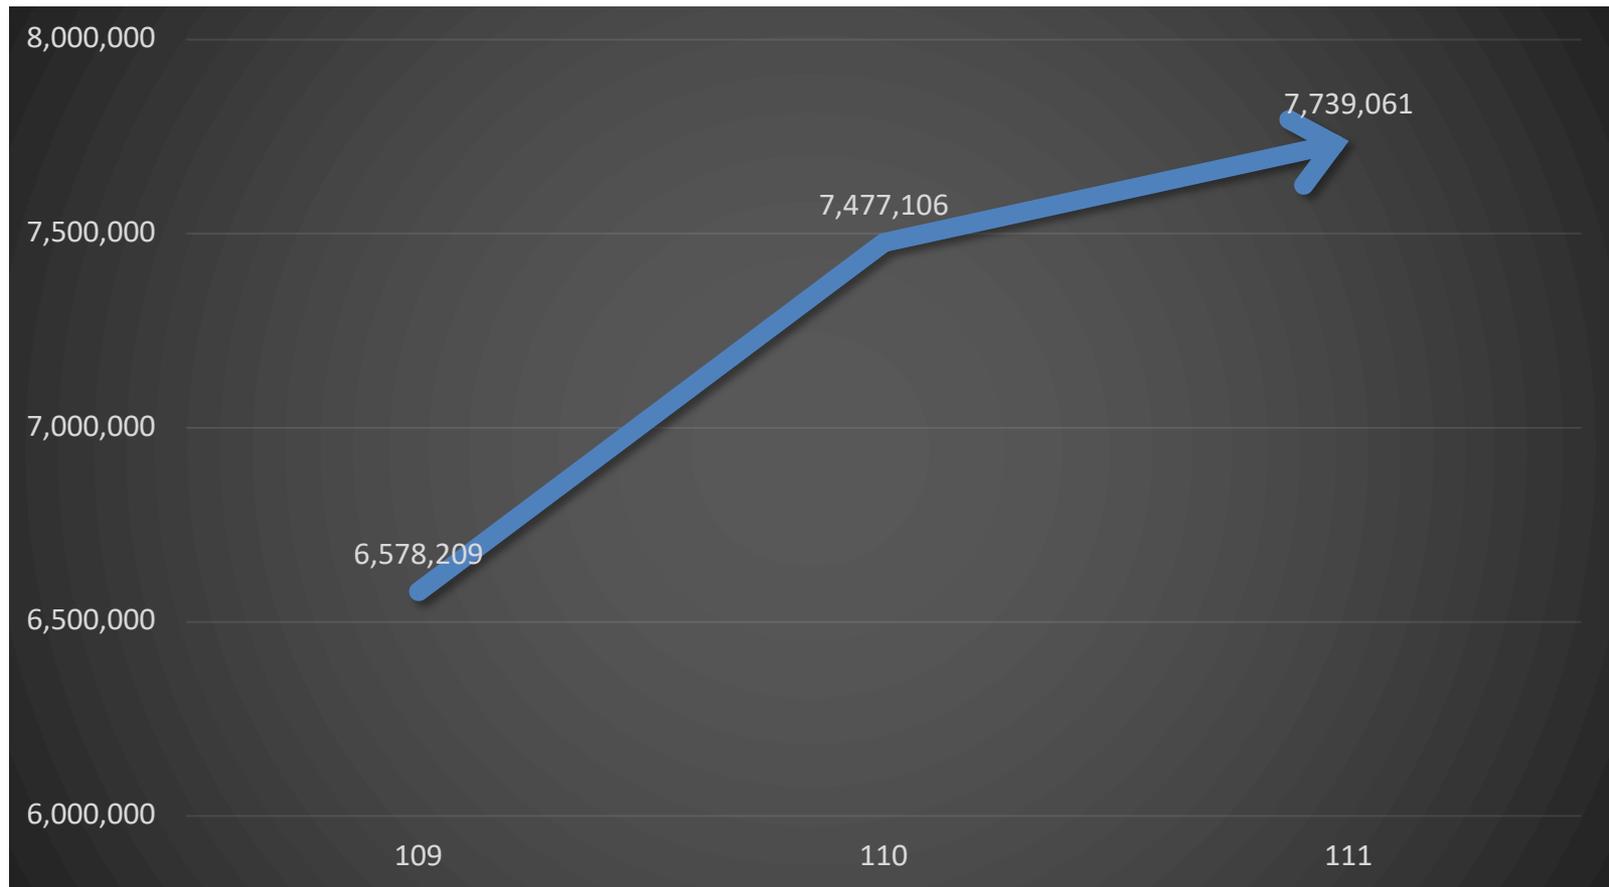

Four Major Businesses

REVENUE SHARE OF JAN-OTC, 2023

Transformation leads to Revenue Growth

Ritek's revenue has grown by nearly 20% in the past three years.

Market demand is expected to decline by 20% in 2024

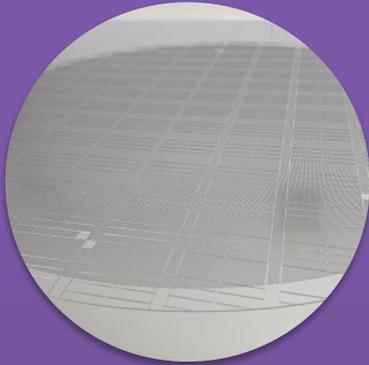

- ✓ Estimated the global demand for recordable optical discs is about 1.053 billion pieces.
- ✓ The global market share of the media business aim to increase from about 40% in 2023 to 50%+.
- ✓ For pre-recorded disc business, maintain current position and diversified differentiated services is our main strategy.
- ✓ Both pre-recorded and recordable discs must become major suppliers in the oligopoly market, in order to sustain their business performance in the coming years and wait for new business opportunities.

Waiting for the return of the Archive disc market, which has been delayed by COVID for three years

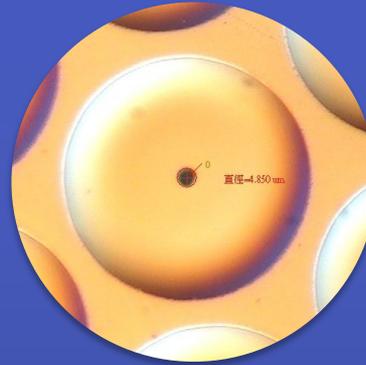

- ✓ Completed ISO 16963 DSD 200G long life certification
- ✓ It is the only company in the world with the ability to mass-produce products from CD, DVD, BD to AD
