RGB lighting

The RV911M features vibrant RGB lighting that reacts to your data transfers, adding a sleek, gaming-inspired touch. Its rhythmic glow elevates your workspace with a high-tech vibe, making it the perfect fusion of speed, style, and performance in a portable RGB SSD.

Magnetics

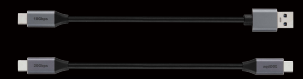

With iPhone MagSafe magnetic attachment, it securely snap on to your iPhone, and comes with a magnetic ring for broader device compatibility.

*Magsafe is a technology property belongs to Apple INC.

Ultra-Wide Compatibility

The RV911M's versatile Type-C port works seamlessly with Windows, Mac, Linux, Android, and more. It includes both USB-C to C and USB-C to A cables for easy, driver-free plug-and-play.

88mm(L) X 46.5mm(W)

ProRes Storage

Unlock 4K ProRes recording and instantly store videos on the RV911M, transforming your iPhone into a mobile film studio.

*iPhones refer to those models that has ProRes recording function like iPhone 15 Pro and later.
